Professional Summary

Motivated CSE (AI & ML) student with practical experience in Python, machine learning, and data analysis, including a completed Data Science internship covering the full workflow from raw data to insights. Worked on predictive modeling, exploratory data analysis, and retail analytics projects. Seeking an entry-level opportunity to apply technical skills and contribute to real-world projects.

Education

B.E. — Computer Science and Engineering (Artificial Intelligence & Machine Learning) 2023 – Present
A.J. Institute of Engineering and Technology, Mangalore

Internship Experience

Data Science Intern — Thiranex Sep – Oct 2026
Online / Remote — 30-day project-based internship

- Completed a project-based Data Science internship covering the full pipeline from raw data to insights, across four evaluated project tasks
- Cleaned and preprocessed raw datasets — handled missing values, duplicates, and outliers using Pandas, and visualized findings with Matplotlib and Seaborn
- Built and evaluated classification models (Logistic Regression, Decision Tree, Random Forest), assessed using accuracy, precision, recall, F1-score, and ROC-AUC
- Performed exploratory data analysis to identify statistical patterns, correlations, and key influencing factors in a real dataset
- Delivered an end-to-end analysis of a real-world retail dataset, producing KPIs and visualizations to communicate business insights

Personal Projects

Predictive Modeling Using Machine Learning

- Built classification models using Logistic Regression, Decision Tree, and Random Forest
- Evaluated models using accuracy, precision, recall, F1-score, confusion matrix, ROC curve, and AUC

Exploratory Data Analysis — Roller Coaster Dataset

- Performed data cleaning, missing-value analysis, duplicate detection, outlier analysis, statistical summaries, visualizations, and correlation analysis

Real-World Retail Analytics

- Performed end-to-end analysis of retail transaction data, including revenue trends, products, categories, customers, payments, discounts, and product combinations
- Created KPIs and visualizations to communicate business insights

Technical Skills

Programming	Database	Tools
Python, C, Java	SQL, DBMS	Git, GitHub, VS Code

Relevant Coursework

Data Structures & Algorithms · DBMS · Machine Learning · Artificial Intelligence · Python Programming · Web Development

Certifications

- Introduction to Cyber Security — Simplilearn (SkillUp), 28 Nov 2025 · Certificate code: 9486037
- Python for Beginners — Simplilearn (SkillUp), 27 Nov 2025 · Certificate code: 9480161
- Introduction to MS Excel — Simplilearn (SkillUp), 26 Nov 2025 · Certificate code: 9474412

Strengths

Problem Solving · Quick Learning · Teamwork · Communication · Willingness to Learn
